

TOWN OF PENDLETON

July 4th Celebration

Fireworks at sunset with viewing available from the Town Park.

Please note change: Due to Federal regulation, the Town of Pendleton has been forced to change the fireworks launch location from the traditional Town Park location to Town-owned property east of the Town Park. Current regulations force this move away from fuel tanks to the south, shelters in the Town Park, and areas of concern adjacent to industrial property to the north of the Town Park. The entire Town Park will be open for viewing the fireworks, but please be advised that you will need to plan to face east when the fireworks display begins. The fireworks experts have modified their planned show to ensure that the display will be as exciting as it has been in the past.

We hope to see you there!
