More Information:

The Bear Ridge Solar Project proposed facility in Cambria and Pendleton, NY will deliver clean, reliable, renewable solar energy into the grid in Western New York. That's power for nearly 25,000 homes and businesses, construction jobs for up to 300—and economic benefits for the community.

Bear Ridge Solar LLC plans to file its Preliminary Scoping Statement ("PSS") on or around February 15, 2019. The PSS will be available on the Siting Board's website
