County

7 July 2020

Pendleton Town Board

The 2020 Final Roll of Assessment Values was submitted to Niagara County for review in the last week of June and accepted without changes for submission to New York State for filing and processing of the associated town, county and school bills.

Normal processes coming out of the County Clerk's office and Niagara County's Real Property Services department have picked up pace since implementation of limitations placed on workers because of virus protection protocols. Sales are being processed at a rate better than the last few months but still not back to normal. I'm not sure if this because of fewer sales or a backlog at the county. I have received about a dozen sales to log in, but they only go up to mid-April, a little slow but it will get better.

I thank you again for keeping this meeting Covid compliant. I *still* need a haircut and I don't want to be seen in public while I look like an old, grey, ugly looking, crazy haired Tarzan.

Peace and Love.

(In honor of Ringo Starrs 80th birthday, 7 July. That is the day I wrote this. He was the drummer in a band from the sixties, The Beatles, maybe you heard of them.)
