5 June 2020

Pendleton Town Board

The Board of Assessment met on May 26th, 2020 in Town Hall. The phone conference interaction between the Board members and the homeowners went smoothly, no issues other than the noises heard in the background from their end. That didn't detract from the ability for full communication between parties.

The determination notices of the Board of Assessment Review will be mailed out around 10 June 2020 and then the 2020 Assessment Roll will be finalized with the County and State. My focus of work will change back to regular operation. Logging in sales, reviewing permits, loading new build and additions into the computer system. As time allows, I will get out into the field to update photos and verify property information throughout the town.

Normal processes coming out of the County Clerk's office and the Niagara County Real Property Services department have slowed to a trickle because of limitations placed on workers due to virus protection protocols. This is to be expected because of the specialized nature of handling the information that is specific to their work computers and not available on their home systems.

I thank you for keeping this meeting Covid compliant. I still need a haircut and I don't want to be seen in public while I look like a caveman from those auto insurance commercials.
