#### TOWN OF PENDLETON TOWN BOARD

## RESOLUTION ISSUING A NEGATIVE DECLARATION FOR THE PROPOSED TOWN CODE REVISIONS ADOPTED AS LOCAL LAW 2 OF 2022

**WHEREAS**, before the Town of Pendleton Town Board ("Board") is a proposed revision of various sections of the Code of the Town of Pendleton ("Code"), including certain sections of Chapter 247 therein, Zoning ("Zoning Code"), and a proposed Fee Schedule ("Action"); and

WHEREAS, the Board has duly considered the Action, the Environmental Assessment Form, the criteria for determining significance set forth in 6 N.Y.C.R.R. § 617.7(c), and such other information deemed appropriate; and

WHEREAS, the Board has identified the relevant areas of environmental concern, has taken a hard look at these areas, and has made a reasoned elaboration of the basis for its determination;

## NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE TOWN OF PENDLETON TOWN BOARD AS FOLLOWS:

- 1. Based upon a thorough review and examination of the known facts relating to the Action and its careful review of all potentially adverse environmental impacts, and the entire record and proceedings relating to the Action, the Board finds that the Action will not have a significant adverse impact on the environment and that a Draft Environmental Impact Statement will not be prepared.
- 2. The attached Negative Declaration, incorporated herein by reference, is issued and adopted for the reasons stated in the attached Negative Declaration.
- 3. The Town Clerk is hereby authorized and directed to distribute copies of the Resolution as necessary.
  - 4. This resolution is effective immediately.

**PASSED AND ADOPTED** this 13<sup>th</sup> day of June, 2022 by the Town of Pendleton Town Board.

# **NEGATIVE DECLARATION Determination of Non-Significance**

**Lead Agency:** Town of Pendleton Town Board

**Date:** June 13, 2022

This notice is issued pursuant to Part 617 of the implementing regulations pertaining to Article 8 of the Environmental Conservation Law (State Environmental Quality Review Act ("SEQRA")).

The Town of Pendleton Town Board ("Board"), as lead agency, has determined that adoption of Local Law 2 of 2022 revising the Code of the Town of Pendleton ("Code"), including certain sections of Chapter 247 therein, Zoning ("Zoning Code"), and the Fee Schedule ("Action") will not have a significant adverse environmental impact and that a Draft Environmental Impact Statement will not be prepared.

Name of Action: Adoption of Local Law 2 of 2022 revising the Code and Zoning

Code and the Fee Schedule.

**Location of Action:** The Town of Pendleton, New York.

**SEQRA Status:** Type I Action.

**Description of Action:** The Board has reviewed the Local Law adopting various revisions

to the Code and Zoning Code and the Fee Schedule. These revisions were needed to clarify and streamline several sections, chapters, and articles of both the Code and Zoning Code; reinstate certain provisions of the Code and Zoning Code previously repealed; and make minor substantive additions to certain sections of the Zoning Code, including creating a mechanism for alternate members of the Planning Board and Zoning Board of Appeals, ensuring compliance with General Municipal Law in site plan and special use permit

review, etc.

#### **Reasons Supporting this Determination:**

The Board has identified the relevant areas of environmental concern and has taken a hard look at each of the identified areas as required by SEQRA. The Board compared the Action with

the criteria for determining significance identified in 6 NYCRR § 617.7(c)(1) and in accordance with 6 NYCRR §§ 617.7(c)(2) and (3). As indicated below in the discussion of each criterion specified in 6 NYCRR § 617.7(c)(1), the Action will not have a significant adverse impact on the environment.

(i) a substantial adverse change in existing air quality, ground or surface water quality or quantity, traffic or noise levels; a substantial increase in solid waste production; a substantial increase in potential for erosion, flooding, leaching or drainage problems;

The Action will not create a substantial change in existing air quality or ground or surface water quality or quantity, traffic or noise levels, nor will there be any significant increase in solid waste production. Similarly, the Action will not result in any increased potential for erosion, flooding, leaching, or drainage concerns. The Action will only involve amendment to the Code and Zoning Code and adoption of an updated Fee Schedule. No specific developments are being proposed by the Board as a result of the modifications.

(ii) the removal or destruction of large quantities of vegetation or fauna; substantial interference with the movement of any resident or migratory fish or wildlife species; impacts on a significant habitat area; substantial adverse impacts on a threatened or endangered species of animal or plant, or the habitat of such a species; or other significant adverse impacts to natural resources;

There will not be any removal or destruction of large quantities of vegetation or fauna, nor will there be substantial interference with any wildlife or habitat or other natural resources. The Action involves amendment to the Code and Zoning Code and adoption of an updated Fee Schedule; there is no physical development component to the Action.

# (iii) the impairment of the environmental characteristics of a Critical Environmental Area as designated pursuant to subdivision 617.14(g) of this Part;

There are no Critical Environmental Areas as designated under 6 NYCRR § 617.14(g) within the Town of Pendleton. Thus, there will be no such impacts.

# (iv) the creation of a material conflict with a community's current plans or goals as officially approved or adopted; and

The Action does not present a material conflict with the Town's plans or goals for development in the Town, but rather, the Action adheres fully to such goals. For instance, one of the main objectives of the Town of Pendleton Comprehensive Plan 2025 is to "[u]pdate the existing zoning regulations as deemed appropriate to be consistent with the Town Comprehensive Plan 2025." Town of Pendleton Comprehensive Plan 2025 (2008) at ii.

(v) the impairment of the character or quality of important historical, archeological, architectural, or aesthetic resources or of existing community or neighborhood character;

There will be no impairment of the character or quality of important historical, archeological, architectural, or aesthetic resources or of community or neighborhood character as no physical changes to any property within the Town are proposed.

## (vi) a major change in the use of either the quantity or type of energy;

There will be no such impacts as the Action is solely an amendment to the Code and Zoning Code and adoption of an updated Fee Schedule.

### (vii) the creation of a hazard to human health;

The Action does not create a hazard to human health.

(viii) a substantial change in the use, or intensity of use, of land including agricultural, open space or recreational resources, or in its capacity to support existing uses;

There will be no change in the use, or intensity of use, of land nor any impacts to recreational resources or open space as a result of the proposed amendments to the Code and Zoning Code and adoption of the Fee Schedule.

(ix) the encouraging or attracting of a large number of people to a place or places for more than a few days, compared to the number of people who would come to such place absent the action;

There will be no such impacts.

(x) the creation of a material demand for other actions that would result in one of the above consequences;

There will be no such impacts.

(xi) changes in two or more elements of the environment, no one of which has a significant impact on the environment, but when considered together result in a substantial adverse impact on the environment; or

There will be no such impacts.

(xii) two or more related actions undertaken, funded or approved by an agency, none of which has or would have a significant impact on the environment, but when considered cumulatively would meet one or more of the criteria in this subdivision.

There will be no such impacts.

## Full Environmental Assessment Form Part 1 - Project and Setting

# **Instructions for Completing Part 1**

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any contained in Part 1 is accurate and complete.

water supply will be from wells (public or private), what is the maximum pumping and it	
Will the proposed action generate liquid wastes?	gallons/minute.
O3.	☐ Yes ☐No
Total anticipated liquid waste generation per day:  Sature of liquid waste generation per day:  gallons/day	
Nature of liquid wastes to be generated (e.g. senitors waste)	
Nature of liquid wastes to be generated (e.g., sanitary wastewater, industrial; if combination, describ approximate volumes or proportions of each):	e all components and
Vill the proposed action use any existing public wastewater treatment facilities?	Washington and the second
	☐Yes ☐No
Traine of wastewater treatment plant to be used.	
radic of district:	
Does the existing wastewater treatment plant have capacity to serve the project?  Is the project site in the existing district?	
	☐ Yes ☐ No
Is expansion of the district needed?	☐Yes ☐No
and district inceded?	

	-
<ul> <li>Do existing sewer lines serve the project site?</li> </ul>	☐Yes ☐No
Will a line extension within an existing district be necessary to serve the project?	□Yes□No
If Yes:	
Describe extensions or capacity expansions proposed to serve this project:	
Will a new wastewater (sewage) treatment district be formed to serve the project site?	□Yes□No
If Yes:	
Applicant/sponsor for new district:	
Date application submitted or anticipated:	
What is the receiving water for the wastewater discharge?	
If public facilities will not be used, describe plans to provide wastewater treatment for the project, including spec receiving water (name and classification if surface discharge or describe subsurface disposal plans):	ifying proposed
Describe any plans or designs to capture, recycle or reuse liquid waste:	
Will the proposed action disturb more than one acre and create stormwater runoff, either from new point	□Yes□No
sources (i.e. ditches, pipes, swales, curbs, gutters or other concentrated flows of stormwater) or non-point source (i.e. sheet flow) during construction or post construction?	resno
Yes:	
How much impervious surface will the project create in relation to total size of project parcel?	
Square feet or acres (impervious surface)	
Square feet or acres (parcel size)	
Describe types of new point sources.	
Where will the stormwater runoff be directed (i.e. on-site stormwater management facility/structures, adjacent p groundwater, on-site surface water or off-site surface waters)?	roperties,
If to surface waters, identify receiving water bodies or wetlands:	
Will stormwater runoff flow to adjacent properties?	□Yes□No
Does the proposed plan minimize impervious surfaces, use pervious materials or collect and re-use stormwater?	
Does the proposed action include, or will it use on-site, one or more sources of air emissions, including fuel combustion, waste incineration, or other processes or operations?	□Yes□No
Yes, identify:  i. Mobile sources during project operations (e.g., heavy equipment, fleet or delivery vehicles)	
i. Stationary sources during construction (e.g., power generation, structural heating, batch plant, crushers)	salayan kebiliki
i. Stationary sources during operations (e.g., process emissions, large boilers, electric generation)	danjiran kao l
Will any air emission sources named in D.2.f (above), require a NY State Air Registration, Air Facility Permit, or Federal Clean Air Act Title IV or Title V Permit?	□Yes□No
Yes: Is the project site located in an Air quality non-attainment area? (Area routinely or periodically fails to meet ambient air quality standards for all or some parts of the year)	□Yes□No
In addition to emissions as calculated in the application, the project will generate:	
•Tons/year (short tons) of Carbon Dioxide (CO <sub>2</sub> )	
Tons/year (short tons) of Nitrous Oxide (N <sub>2</sub> O)	
Tons/year (short tons) of Perfluorocarbons (PFCs)	
• Tons/year (short tons) of Sulfur Hexafluoride (SF <sub>6</sub> )	
Tons/year (short tons) of Carbon Dioxide equivalent of Hydroflourocarbons (HFCs)	
Tons/year (short tons) of Hazardous Air Pollutants (HAPs)	

h. Will the proposed action generate or emit meth-	ane (including, but not limited to, sewage treatment plants,

# Full Environmental Assessment Form Part 2 - Identification of Potential Project Impacts

	Agency Use Only [If applicable]
Project:	
Date:	

**Part 2 is to be completed by the lead agency.** Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency **and** the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

### **Tips for completing Part 2:**

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

This wer the question in a reasonable manner considering the scale and context of	ine project.		
1. Impact on Land Proposed action may involve construction on, or physical alteration of,	✓NC		YES
the land surface of the proposed site. (See Part 1. D.1)			
If "Yes", answer questions a - j. If "No", move on to Section 2.			
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may involve construction on land where depth to water table is less than 3 feet.	E2d		
b. The proposed action may involve construction on slopes of 15% or greater.	E2f		
c. The proposed action may involve construction on land where bedrock is exposed, or generally within 5 feet of existing ground surface.	E2a		
d. The proposed action may involve the excavation and removal of more than 1,000 tons of natural material.	D2a		
e. The proposed action may involve construction that continues for more than one year or in multiple phases.	D1e		
f. The proposed action may result in increased erosion, whether from physical disturbance or vegetation removal (including from treatment by herbicides).	D2e, D2q		
g. The proposed action is, or may be, located within a Coastal Erosion hazard area.	Bli		
h. Other impacts:			

2. Impact on Geological Features			
The proposed action may result in the modification or destruction of, or inhib access to, any unique or unusual land forms on the site (e.g., cliffs, dunes, minerals, fossils, caves). (See Part 1. E.2.g)  If "Yes", answer questions a - c. If "No", move on to Section 3.	it NO		YES
If Tes, unswer questions a - c. If No, move on to section 3.	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Identify the specific land form(s) attached:	E2g		
b. The proposed action may affect or is adjacent to a geological feature listed as a registered National Natural Landmark.  Specific feature:	E3c		
c. Other impacts:			
3. Impacts on Surface Water  The proposed action may affect one or more wetlands or other surface water bodies (e.g., streams, rivers, ponds or lakes). (See Part 1. D.2, E.2.h)  If "Yes", answer questions a - l. If "No", move on to Section 4.	☑nc		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may create a new water body.	D2b, D1h		
b. The proposed action may result in an increase or decrease of over 10% or more than a 10 acre increase or decrease in the surface area of any body of water.	D2b		
c. The proposed action may involve dredging more than 100 cubic yards of material from a wetland or water body.	D2a		
d. The proposed action may involve construction within or adjoining a freshwater or tidal wetland, or in the bed or banks of any other water body.	E2h		
e. The proposed action may create turbidity in a waterbody, either from upland erosion, runoff or by disturbing bottom sediments.	D2a, D2h		
f. The proposed action may include construction of one or more intake(s) for withdrawal of water from surface water.	D2c		
g. The proposed action may include construction of one or more outfall(s) for discharge of wastewater to surface water(s).	D2d		
h. The proposed action may cause soil erosion, or otherwise create a source of stormwater discharge that may lead to siltation or other degradation of receiving water bodies.	D2e		
<ol> <li>The proposed action may affect the water quality of any water bodies within or downstream of the site of the proposed action.</li> </ol>	E2h		
j. The proposed action may involve the application of pesticides or herbicides in or around any water body.	D2q, E2h		
k. The proposed action may require the construction of new, or expansion of existing,	D1a, D2d		

wastewater treatment facilities.

1. Other impacts:			
4. Impact on groundwater  The proposed action may result in new or additional use of ground water, or may have the potential to introduce contaminants to ground water or an aquife (See Part 1. D.2.a, D.2.c, D.2.d, D.2.p, D.2.q, D.2.t)  If "Yes", answer questions a - h. If "No", move on to Section 5.	☑NO er.		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may require new water supply wells, or create additional demand on supplies from existing water supply wells.	D2c		
b. Water supply demand from the proposed action may exceed safe and sustainable withdrawal capacity rate of the local supply or aquifer.  Cite Source:	D2c		
c. The proposed action may allow or result in residential uses in areas without water and sewer services.	D1a, D2c		
d. The proposed action may include or require wastewater discharged to groundwater.	D2d, E2l		
e. The proposed action may result in the construction of water supply wells in locations where groundwater is, or is suspected to be, contaminated.	D2c, E1f, E1g, E1h		
f. The proposed action may require the bulk storage of petroleum or chemical products over ground water or an aquifer.	D2p, E2l		
g. The proposed action may involve the commercial application of pesticides within 100 feet of potable drinking water or irrigation sources.	E2h, D2q, E2l, D2c		
h. Other impacts:			
5. Impact on Flooding The proposed action may result in development on lands subject to flooding. (See Part 1. E.2) If "Yes", answer questions a - g. If "No", move on to Section 6.	✓no		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in development in a designated floodway.	E2i		
b. The proposed action may result in development within a 100 year floodplain.	E2j		
c. The proposed action may result in development within a 500 year floodplain.	E2k		
d. The proposed action may result in, or require, modification of existing drainage patterns.	D2b, D2e		
e. The proposed action may change flood water flows that contribute to flooding.	D2b, E2i, E2j, E2k		
f. If there is a dam located on the site of the proposed action, is the dam in need of repair, or upgrade?	E1e		

g. Other impacts:			
6. Impacts on Air  The proposed action may include a state regulated air emission source.  (See Part 1. D.2.f., D.2.h, D.2.g)  If "Yes", answer questions a - f. If "No", move on to Section 7.	✓NO	· 🗆	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
<ul> <li>a. If the proposed action requires federal or state air emission permits, the action may also emit one or more greenhouse gases at or above the following levels: <ol> <li>i. More than 1000 tons/year of carbon dioxide (CO<sub>2</sub>)</li> <li>ii. More than 3.5 tons/year of nitrous oxide (N<sub>2</sub>O)</li> <li>iii. More than 1000 tons/year of carbon equivalent of perfluorocarbons (PFCs)</li> <li>iv. More than .045 tons/year of sulfur hexafluoride (SF<sub>6</sub>)</li> <li>v. More than 1000 tons/year of carbon dioxide equivalent of hydrochloroflourocarbons (HFCs) emissions</li> <li>vi. 43 tons/year or more of methane</li> </ol> </li> </ul>	D2g D2g D2g D2g D2g D2g		
b. The proposed action may generate 10 tons/year or more of any one designated	D2n		
hazardous air pollutant, or 25 tons/year or more of any combination of such hazardous air pollutants.	2		_
c. The proposed action may require a state air registration, or may produce an emissions rate of total contaminants that may exceed 5 lbs. per hour, or may include a heat source capable of producing more than 10 million BTU's per hour.	D2f, D2g		
d. The proposed action may reach 50% of any of the thresholds in "a" through "c", above.	D2g		
e. The proposed action may result in the combustion or thermal treatment of more than 1 ton of refuse per hour.	D2s		
f. Other impacts:			
7. Impact on Plants and Animals The proposed action may result in a loss of flora or fauna. (See Part 1. E.2. r  If "Yes", answer questions a - j. If "No", move on to Section 8.	mq.)	✓NO	☐ YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may cause reduction in population or loss of individuals of any threatened or endangered species, as listed by New York State or the Federal government, that use the site, or are found on, over, or near the site.	E2o		
b. The proposed action may result in a reduction or degradation of any habitat used by any rare, threatened or endangered species, as listed by New York State or the federal government.	E2o		
c. The proposed action may cause reduction in population, or loss of individuals, of any species of special concern or conservation need, as listed by New York State or the Federal government, that use the site, or are found on, over, or near the site.	E2p		
d. The proposed action may result in a reduction or degradation of any habitat used by any species of special concern and conservation need, as listed by New York State or the Federal government.	E2p		

e. The proposed action may diminish the capacity of a registered National Natural Landmark to support the biological community it was established to protect.	ЕЗс		
f. The proposed action may result in the removal of, or ground disturbance in, any portion of a designated significant natural community.  Source:	E2n		
g. The proposed action may substantially interfere with nesting/breeding, foraging, or over-wintering habitat for the predominant species that occupy or use the project site.	E2m		
h. The proposed action requires the conversion of more than 10 acres of forest, grassland or any other regionally or locally important habitat.  Habitat type & information source:	E1b		
i. Proposed action (commercial, industrial or recreational projects, only) involves use of herbicides or pesticides.	D2q		
j. Other impacts:			
8. Impact on Agricultural Resources The proposed action may impact agricultural resources. (See Part 1. E.3.a. a If "Yes", answer questions a - h. If "No", move on to Section 9.	and b.)	✓NO	YES
	Relevant	No. on	3.7 1 4
	Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may impact soil classified within soil group 1 through 4 of the NYS Land Classification System.	Part I	small impact	to large impact may
	Part I Question(s)	small impact may occur	to large impact may occur
NYS Land Classification System.  b. The proposed action may sever, cross or otherwise limit access to agricultural land	Part I Question(s)	small impact may occur	to large impact may occur
NYS Land Classification System.  b. The proposed action may sever, cross or otherwise limit access to agricultural land (includes cropland, hayfields, pasture, vineyard, orchard, etc).  c. 9. Impact on Aesthetic Resources  The land use of the proposed action are obviously different from, or are in sharp contrast to, current land use patterns between the proposed project and a scenic or aesthetic resource. (Part 1. E.1.a, E.1.b, E.3.h.)  If "Yes", answer questions a - g. If "No", go to Section 10.	√N0	0 [	]YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Proposed action may be visible from any officially designated federal, state, or local scenic or aesthetic resource.	E3h		
b. The proposed action may result in the obstruction, elimination or significant screening of one or more officially designated scenic views.	E3h, C2b		
c. The proposed action may be visible from publicly accessible vantage points: i. Seasonally (e.g., screened by summer foliage, but visible during other seasons) ii. Year round	E3h		
<ul><li>d. The situation or activity in which viewers are engaged while viewing the proposed action is:</li><li>i. Routine travel by residents, including travel to and from work</li><li>ii. Recreational or tourism based activities</li></ul>	E3h E2q, E1c		
e. The proposed action may cause a diminishment of the public enjoyment and appreciation of the designated aesthetic resource.	E3h		
f. There are similar projects visible within the following distance of the proposed project:  0-1/2 mile ½-3 mile 3-5 mile 5+ mile	D1a, E1a, D1f, D1g		
g. Other impacts:			
		<u> </u>	L
10. Impact on Historic and Archeological Resources  The proposed action may occur in or adjacent to a historic or archaeological resource. (Part 1. E.3.e, f. and g.)  If "Yes", answer questions a - e. If "No", go to Section 11.	<b></b> ✓N0	o [	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may occur wholly or partially within, or substantially contiguous to, any buildings, archaeological site or district which is listed on the National or State Register of Historical Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places.	E3e		
b. The proposed action may occur wholly or partially within, or substantially contiguous to, an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory.	E3f		
c. The proposed action may occur wholly or partially within, or substantially contiguous to, an archaeological site not included on the NY SHPO inventory.	E3g		

d. Other impacts:			
If any of the above (a-d) are answered "Moderate to large impact may e. occur", continue with the following questions to help support conclusions in Part 3:			
<ol> <li>The proposed action may result in the destruction or alteration of all or part of the site or property.</li> </ol>	E3e, E3g, E3f		
<ol> <li>The proposed action may result in the alteration of the property's setting or integrity.</li> </ol>	E3e, E3f, E3g, E1a, E1b		
iii. The proposed action may result in the introduction of visual elements which are out of character with the site or property, or may alter its setting.	E3e, E3f, E3g, E3h, C2, C3		
11. Impact on Open Space and Recreation  The proposed action may result in a loss of recreational opportunities or a reduction of an open space resource as designated in any adopted municipal open space plan.  (See Part 1. C.2.c, E.1.c., E.2.q.)  If "Yes", answer questions a - e. If "No", go to Section 12.	✓N0	o [	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in an impairment of natural functions, or "ecosystem services", provided by an undeveloped area, including but not limited to stormwater storage, nutrient cycling, wildlife habitat.	D2e, E1b E2h, E2m, E2o, E2n, E2p		
b. The proposed action may result in the loss of a current or future recreational resource.	C2a, E1c, C2c, E2q		
c. The proposed action may eliminate open space or recreational resource in an area with few such resources.	C2a, C2c E1c, E2q		
d. The proposed action may result in loss of an area now used informally by the community as an open space resource.	C2c, E1c		
e. Other impacts:			
12. Impact on Critical Environmental Areas  The proposed action may be located within or adjacent to a critical environmental area (CEA). (See Part 1. E.3.d)  If "Yes", answer questions a - c. If "No", go to Section 13.	✓ No	o 🗌	YES
ij Tes , unswer questions a c. ij 110 , go to section 13.	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in a reduction in the quantity of the resource or characteristic which was the basis for designation of the CEA.	E3d		
b. The proposed action may result in a reduction in the quality of the resource or characteristic which was the basis for designation of the CEA.	E3d		
c. Other impacts:			

13. Impact on Transportation  The proposed action may result in a change to existing transportation systems (See Part 1. D.2.j)  If "Yes", answer questions a - f. If "No", go to Section 14.	. VN	о 🗌	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Projected traffic increase may exceed capacity of existing road network.	D2j		
b. The proposed action may result in the construction of paved parking area for 500 or more vehicles.	D2j		
c. The proposed action will degrade existing transit access.	D2j		
d. The proposed action will degrade existing pedestrian or bicycle accommodations.	D2j		
e. The proposed action may alter the present pattern of movement of people or goods.	D2j		
f. Other impacts:			
14. Impact on Energy	1		1
The proposed action may cause an increase in the use of any form of energy. (See Part 1. D.2.k)  If "Yes", answer questions a - e. If "No", go to Section 15.	✓N(	Ο 🗌	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action will require a new, or an upgrade to an existing, substation.	D2k		
b. The proposed action will require the creation or extension of an energy transmission or supply system to serve more than 50 single or two-family residences or to serve a commercial or industrial use.	D1f, D1q, D2k		
c. The proposed action may utilize more than 2,500 MWhrs per year of electricity.	D2k		
d. The proposed action may involve heating and/or cooling of more than 100,000 square feet of building area when completed.	D1g		
e. Other Impacts:			
	·		
15. Impact on Noise, Odor, and Light  The proposed action may result in an increase in noise, odors, or outdoor ligh (See Part 1. D.2.m., n., and o.)  If "Yes", answer questions a - f. If "No", go to Section 16.	ting. VNC	) 🗆	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may produce sound above noise levels established by local regulation.	D2m		
b. The proposed action may result in blasting within 1,500 feet of any residence, hospital, school, licensed day care center, or nursing home.	D2m, E1d		
c. The proposed action may result in routine odors for more than one hour per day.	D2o		

c. The proposed action may result in lighting creating sky-glow brighter than existing area conditions.  f. Other impacts:	d. The proposed action may result in light shining onto adjoining properties.	D2n		
16. Impact on Human Health The proposed action may have an impact on human health from exposure to new or existing sources of contaminants. (See Part I.D.2.q., E.I. d. f. g. and h.)  If "Yes", answer questions a - m. If "No", go to Section 17.  Relevant Part I Question(s)  Moderate to large impact may occur  a. The proposed action is located within 1500 feet of a school, hospital, licensed day care center, group home, nursing home or retirement community.  b. The site of the proposed action is currently undergoing remediation.  c. There is a completed emergency spill remediation, or a completed environmental site remediation on, or adjacent to, the site of the proposed action.  d. The site of the action is subject to an institutional control limiting the use of the property (e.g., easement or deed restriction).  e. The proposed action may affect institutional control measures that were put in place to ensure that the site remains protective of the environment and human health.  f. The proposed action has adequate control measures in place to ensure that future generation, treatment and/or disposal of hazardous wastes will be protective of the environment and human health.  g. The proposed action involves construction or modification of a solid waste management facility.  h. The proposed action may result in the unearthing of solid or hazardous waste.  D2q, E1f    D2r, D2s    D2r, D2s		D2n, E1a		
The proposed action may have an impact on human health from exposure to new or existing sources of contaminants. (See Part 1.D.2.q., E.1. d. f. g. and h.)  If "Yes", answer questions a - m. If "No", go to Section 17.  Relevant Part I Question(s)  a. The proposed action is located within 1500 feet of a school, hospital, licensed day care center, group home, nursing home or retirement community.  b. The site of the proposed action is currently undergoing remediation.  Elg, Elh              c. There is a completed emergency spill remediation, or a completed environmental site remediation on, or adjacent to, the site of the proposed action.  d. The site of the action is subject to an institutional control limiting the use of the property (e.g., easement or deed restriction).  e. The proposed action may affect institutional control measures that were put in place to ensure that the site remains protective of the environment and human health.  f. The proposed action has adequate control measures in place to ensure that future generation, treatment and/or disposal of hazardous wastes will be protective of the environment and human health.  g. The proposed action involves construction or modification of a solid waste management facility.  h. The proposed action may result in the unearthing of solid or hazardous waste.  g. The proposed action may result in excavation or other disturbance within 2000 feet of solid or hazardous waste.  j. The proposed action may result in the migration of explosive gases from a landfill site to adjacent off site structures.  l. The proposed action may result in the migration of explosive gases from the project site.	f. Other impacts:			
The proposed action may have an impact on human health from exposure to new or existing sources of contaminants. (See Part 1.D.2.q., E.1. d. f. g. and h.)  If "Yes", answer questions a - m. If "No", go to Section 17.  Relevant Part I Question(s)  a. The proposed action is located within 1500 feet of a school, hospital, licensed day care center, group home, nursing home or retirement community.  b. The site of the proposed action is currently undergoing remediation.  Elg, Elh              c. There is a completed emergency spill remediation, or a completed environmental site remediation on, or adjacent to, the site of the proposed action.  d. The site of the action is subject to an institutional control limiting the use of the property (e.g., easement or deed restriction).  e. The proposed action may affect institutional control measures that were put in place to ensure that the site remains protective of the environment and human health.  f. The proposed action has adequate control measures in place to ensure that future generation, treatment and/or disposal of hazardous wastes will be protective of the environment and human health.  g. The proposed action involves construction or modification of a solid waste management facility.  h. The proposed action may result in the unearthing of solid or hazardous waste.  g. The proposed action may result in excavation or other disturbance within 2000 feet of solid or hazardous waste.  j. The proposed action may result in the migration of explosive gases from a landfill site to adjacent off site structures.  l. The proposed action may result in the migration of explosive gases from the project site.		1		I
Relevant Part I Question(s) simpact may recurr a. The proposed action is located within 1500 feet of a school, hospital, licensed day care center, group home, nursing home or retirement community.  b. The site of the proposed action is currently undergoing remediation.  c. There is a completed emergency spill remediation, or a completed environmental site remediation on, or adjacent to, the site of the proposed action.  d. The site of the action is subject to an institutional control limiting the use of the property (e.g., easement or deed restriction).  e. The proposed action may affect institutional control measures that were put in place to ensure that the site remains protective of the environment and human health.  f. The proposed action has adequate control measures in place to ensure that future generation, treatment and/or disposal of hazardous wastes will be protective of the environment and human health.  g. The proposed action involves construction or modification of a solid waste management facility.  h. The proposed action may result in the unearthing of solid or hazardous waste.  j. The proposed action may result in an increase in the rate of disposal, or processing, of solid waste.  j. The proposed action may result in excavation or other disturbance within 2000 feet of a site used for the disposal of solid or hazardous waste.  k. The proposed action may result in the migration of explosive gases from a landfill site to adjacent off site structures.	The proposed action may have an impact on human health from exposure to new or existing sources of contaminants. (See Part 1.D.2.q., E.1. d. f. g. ar		o 🗆	YES
care center, group home, nursing home or retirement community.  b. The site of the proposed action is currently undergoing remediation.  c. There is a completed emergency spill remediation, or a completed environmental site remediation on, or adjacent to, the site of the proposed action.  d. The site of the action is subject to an institutional control limiting the use of the property (e.g., easement or deed restriction).  e. The proposed action may affect institutional control measures that were put in place to ensure that the site remains protective of the environment and human health.  f. The proposed action has adequate control measures in place to ensure that future generation, treatment and/or disposal of hazardous wastes will be protective of the environment and human health.  g. The proposed action involves construction or modification of a solid waste management facility.  h. The proposed action may result in the unearthing of solid or hazardous waste.  p. The proposed action may result in excavation or other disturbance within 2000 feet of a site used for the disposal of solid or hazardous waste.  k. The proposed action may result in the migration of explosive gases from a landfill site to adjacent off site structures.  l. The proposed action may result in the release of contaminated leachate from the project site.		Part I	small impact	to large impact may
c. There is a completed emergency spill remediation, or a completed environmental site remediation on, or adjacent to, the site of the proposed action.  d. The site of the action is subject to an institutional control limiting the use of the property (e.g., easement or deed restriction).  e. The proposed action may affect institutional control measures that were put in place to ensure that the site remains protective of the environment and human health.  f. The proposed action has adequate control measures in place to ensure that future generation, treatment and/or disposal of hazardous wastes will be protective of the environment and human health.  g. The proposed action involves construction or modification of a solid waste management facility.  h. The proposed action may result in the unearthing of solid or hazardous waste.  p. 2q, Elf  i. # Full Environmental Assessment Form Part 3 - Evaluation of the Magnitude and Importance of Project Impacts and Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

#### **Reasons Supporting This Determination:**

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact
  occurring, number of people affected by the impact and any additional environmental consequences if the impact were to
  occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where
  there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse
  environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

Determination of Significance - Type 1 and Unlisted Actions
