Members of the Town Board,

I am writing to express my interest in serving as a member of the Ethics Committee. My professional background has equipped me with a deep understanding of the importance of ethics and compliance. Having worked in both the financial and health insurance industries, I have had experience with strict regulatory environments where adherence to laws and ethical standards is paramount. These experiences have fostered a strong sense of accountability and integrity in all my professional undertakings. My role as an engineer within IT has required my collaboration with regulatory and audit departments which has provided me the opportunity to become familiar with the processes and expectations in related matters. I have always believed in upholding high standards in both my personal and professional life, and I am committed to living out these moral and ethical principles the the best of my abilities.

I believe my unique combination of skills and experiences makes me a strong candidate for the Ethics Committee. After speaking with Wolfgang it became evident to me that the Ethics Committee is in need of members who not only work diligently with the best intentions of the Town, but also can remain unbiased when dealing with challenging topics. I am committed to fostering transparency and ethical behavior within our community, and I am eager to contribute positively to the committee's mission. Thank you for considering my application; I look forward to the opportunity to serve our town and help uphold our shared values.

Sincerely,
Dylan Rumbold
